INDEX.

Abstracts, imperfect publication, 189.
Acetylenes, 9.
Ammonia from shale, &c., 116–123, 128.
Anfilogoff, N. A., on viscosity of lubricants, 217.
Aromatic hydrocarbons, 9, 24, 128.
Asia Minor, natural gas, 3.

Baku, 161–188, 230, 233, 234, 238, 260, 267.
Barbados Petroleum Bibliography, 63.
——, Prospective Oilfields, 68–78, 107–109.
Barringer, H., on electric power in oilfields, 263.
Barrow, G., on petroleum in British Isles, 55.
Berry, A. G. V., A New British Oil Industry, 110–157.
Bibliography, electric power in oilfields, 260–262.
——, viscosity and constitution of lubricating oils, 215, 216.
Blackband ironstone, 114, 124, 140.
Bowen, R., on shale distillation and spent shale briquettes, 142.
Brame, J. S. S., on petrol-testing, 26.
——, on viscosity of lubricants, 219.
Briquettes, 143.
British hydrocarbons, 1.
—— Isles, no petroleum, 37–62.
—— Oil Industry, A New, 110–157.
Burford, J. W., Application of Electrical Power to Oilfield Requirements, 229–276.
Burls, H. T., on cannel coal supply, 138.
Burma, 260.
Butterfield, W. J. A., on viscosity of lubricants, 223.

Cadman, J., on testing petrol, 34.
——, on distillation of cannel and Blackband ironstone, 146–151.
California, 233, 237, 259.
Calorimetry, 22, 27.
Camphenes, 9.
Cannel coal, 112–114, 117–120, 123–133, 139–150, 154–157.
Capital, foreign, in Russian oil industry, 182.
Carboniferous petroleum, 42–48, 51, 55.
Carbonisation - temperatures, 116, 121–125, 139, 141, 145, 155.
Carbousiron process, 136.
Caribbean region, tectonics of, 68–78, 107.
Chimæra (Asia Minor), 3.
Conacher, H. R. J., on Scotch petroleum, 61.
Craig, E. H. C., on Scotch petroleum, 51.
——, The Prospective Oilfields of Barbados, 68–78, 109.
——, A New British Oil Industry, 110–157.
——, on electric power in oilfields, 270.

Dalley, C., on electric power in oilfields, 264.
Dalton, W. H., Native Hydrocarbons, 1.
——, The Chimæra, 3.
——, On the Oil Prospects of the British Isles, 37–50, 60.
——, Bibliography of Barbados Petroleum, 63.
——, Policy of the Inst. Petrol. Technol., 65.
——, Periodicity in Spouters, 104.
——, How to assist the Institution, 105.
——, Co-ordination of Scientific Publication, 191.
Dephlegmator lagging, 28.
Devonian petroleum, 41.
Djingi oilfield (W. of R. Ural), 160.
Drilling systems, Rumania, 88–92, 100–103.
——, Russia, 188.
Duckham, A., on standardisation, 4.
Dunstan, A. E., on petrol testing, 30.
——, A New British Oil Industry, 110–157.
——, Viscosity and Constitution of Lubricating Oils, 191–228.

Electric Power in Oilfields, 229–276.
Evans, E. A., on viscosity of lubricants, 227.

Fergana, 159.
Forbes-Leslie, W., on British petroleum, 53.
Ford, J., on British petroleum, 54.

Galicia, 240, 276.
Gaster, L., on Rumanian oilfields, 97.
Ghambashidze, D., The Russian Petroleum Industry, 158–188.
Graphite, metamorphosed petroleum, 41.
Greenway, C., on petrol testing, 26.
——, on British petroleum, 61.
——, on Rumanian oilfields, 94.
——, on cannel oil, 134, 156.
Grozni, 159.
Guria, 160.
Guttentag, W. M., on petrol testing, 32.
——, Rumanian oilfields, 94.

Hamilton, L., on Rumanian oilfields, 96.
Henderson, J. A. L., on electric power in oilfields, 270.
Hill, —, on distillation of cannel and Blackband ironstone, 140.
Hollingworth, D. V., on Blackband ironstone distillation, 135.
Honours to Members of the Institution :—
Sir John Cadman, no. 13, p. xi ; no. 16, p. viii.
Lieut. A. L. Eastlake, no. 16, p. viii.
Sir W. Plender, no. 14, p. xxiv.
Howe, W. H., on viscosity of lubricants, 224.

Ignition-point of petrol, 25.
Illing, V. C., on British petroleum, 57.
Inorganic petroleum, 40.
Institution of Petroleum Technologists. Policy to follow, 65.
——, suggestions how to assist, 105.
Irish petroleum, 39, 49.

Jurassic petroleum, 48, 53.

Kimmeridge shale, 112, 152.
Kuban oilfields, 159.

Labour in Baku oilfields, 174–178.
Lamplough, F., on cannel distillation, 144.
Liassic petroleum, 48.
Lomax, E. L., Testing and Standardisation of Motor Fuel, 6–36.
——, on viscosity of lubricants, 220.
Lubricating Oils, Relation of Viscosity and Constitution, 191–228.

McCarthy-Jones, C., on electric power in oilfields, 272.

Manfield, W. H., on shale distillation, 151.
Masterson, T. S., The Petroleum History of Rumania, 79–103.
Millar, A., on electric power in oilfields, 276.
Motor fuel, 6–36.

Naphthenes, 8.
Natural gas, Asia Minor, 3.

Obituary notices :—
G. T. Holloway, no. 13, p. x.
S. F. Stackard, no. 16, p. viii.
Ockenden, M. A., on Rumanian oilfields, 101.
——, on electric power in oilfields, 275.
Oil-fever, 38, 54, 61.
Oilfields, electric power in, 229–276.
Olefines, 9, 22, 129.

Palestine Oilfield, 3.
Paraffins (n, *iso-* and *cyclo-*), 6–8, 31, 128.
Peat, petroleum in, 49.
Periodicity in Spouters, 104.
Perkin, F. M., on testing petrol, 28.
——, A New British Oil Industry, 28, 110–157.
Permian petroleum, 48.
Petrol, standardisation, 6–36.
——, from cannel, &c., 130–133, 156.
Petroleum, Barbados, 63, 68.
——, British Isles, 37–62.
——, ——, artificial, 110–157.
—— legislation, Rumania, 82, 98.
